

Careermap provides an expert careers consultancy service to support, enhance and expand the delivery of careers counselling and career education programs in schools.

Ultimately teachers, parents and students have a common aim; that of developing in students the ability and confidence to make a successful transition from school to a positive future, suited to their unique personality, abilities, interests, values and life/work preferences.

Careermap can assist and enhance the crucial work undertaken by career guidance staff in schools at landmark stages in students' career development.

As the Careers Consultant at careermap, I offer expertise in careers counselling, vocational profiling and the development of personal portfolios and applications for tertiary entry, employment and career change.

I have a passion for career guidance, enjoying the challenges and rewards associated with working with young people in identifying and achieving their career goals. My expertise in careers counselling allows me to use the skills, knowledge and understanding acquired through extensive teaching and counselling experience, and professional qualifications.

I pride myself in the delivery of the highest level of professional service to the young people who seek out my assistance. I possess a deep understanding of career development, affording me the ability to deliver up to date, forward thinking career education, vocational profiling and careers counselling. I have expertise in the delivery and interpretation of the Morrisby Report which has been validated by reliable psychometric research, and I employ the most effective career interest measures and career research tools with her clients.

**Mrs Joan Perrone**
